

StandardAir Compressor Fluid

2000 Series Oils

Direct replacement for use in vane compressors such as Hydrovane and Mattei and can be used as top up to OE oil if required.

Intended for up to 2000 hour operation with operating temperatures not exceeding 95°C.

4000 Series Oil.

Direct replacement for the majority of oil injected industrial rotary screw compressors and can be used as a top up to OE oil if required.

Performance characteristics will be maintained throughout it's 4000 hour design life providing oil temperature does not exceed 90°C.

Full Technical & Safety Oil Data Sheets are available on request.
